CULTURAL ENCOUNTERS IN BWINDI

Overlooking the imposing hillsides of Bwindi Impenetrable forest, with mist swirling over the summits, Buhoma is a truly dramatic setting for your cultural tour!

The three-hour village walk begins with a visit to the handcraft shop – selling handmade artefacts such as fabrics, beeswax candles and wood carvings, all produced by talented local

craftsmen and women. The neighboring Batwa community performs songs and dances about their former life in the forest, introducing you to another unique local culture. You will also meet the traditional healer who treats the sick with medicinal plants, and the teachers and pupils of the local primary school.

Finally, you can learn how bananas are used to make juice, beer and gin – and taste the results!
